
INTERNATIONAL CENTRE FOR UNDERWATER ARCHAEOLOGY IN ZADAR – SV. NIKOLA EDUCATION AND PRESENTATION CENTRE

International Centre for Underwater Archaeology in Zadar is currently in progress of reconstructing the premises of the Church of St Nicholas in Zadar, where a new educational and presentation centre of underwater archaeology is to be established. The future centre will be equipped with modern tools such as touch-screen monitors, presentation of 3D models of underwater sites, virtual and augmented reality. The project is to ensure the renovation of already existing premises and the construction of new facilities of ICUA Zadar, their equipping and adaptation to new contents with the primary purpose of enhancement of cultural, educational, and scientific segment of ICUA Zadar and its role in research, protection and dissemination of UCH on a national and regional scale.
